

# How to Cut the Cost of Holes in Half!

# CRETE-SLEEVE®

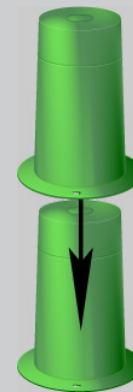

- High Density Polyethylene
- One-Piece Unit, No Assembly
- Installs in Seconds
- Won't Chip, Dent, Split or Bend
- Removes Easily From Form
- Round Uniform Holes Every Time
- Safe to Use, No Sharp Edges

Crete-Sleeve® Plastic Hole Forms come in 9 different sizes, making them versatile enough to meet any construction need. Crete-Sleeve® Plastic Hole Forms are adjustable to any application.

Top Hole Diameter (A)	Base Hole Diameter (B)	Overall Length (C)	Qty Per Carton
1 1/2"	1 3/4"	8 3/4"	100
2"	2 13/32"	8 3/4"	100
3"	3 13/32"	8 3/4"	50
4"	4 13/32"	8 3/4"	50
5"	5 13/32"	8 3/4"	30
6"	6 13/32"	8 3/4"	30
8"	8 7/16"	8 3/4"	10
10"	10 7/16"	9 1/8"	10
12"	12 7/16"	9 1/8"	10

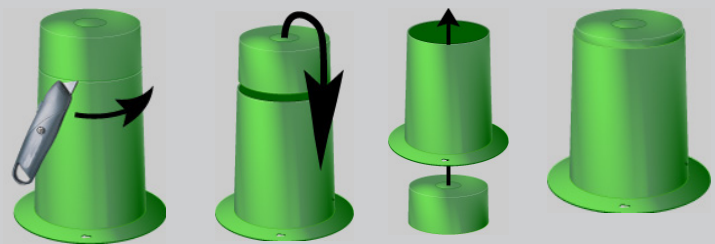

Dimensions shown at points A & B are actual hole diameters. Dimension C refers to height.

For slabs deeper than 8 3/4", telescope two or more together

For slabs shallower than 8 3/4" or for a smooth slab finish, cut off the tops of Crete-Sleeve® Forms and push them up through the bottom halves (top side up as indicated). No more stuffing sand, rags or paper to plug holes!
